December 6 @ 8:30 am - 3:30 pm

## BU to Host Urban Health: State of the Science on Thursday, December 6

More than half of the world's population lives in urban areas. By the year 2030, this will have increased to two-thirds. Urban living is an ubiquitous exposure for health. The day will bring together scholars from around the world to discuss the challenges and opportunities associated with creating health in urban contexts. Presenters will also discuss methods that can advance urban health scholarship and feature case studies from cities that have invested in population health, synthesizing the state of the science of urban health.

Thursday, December 6, 2018, 8:30 a.m. to 3:30 p.m.

For more information on this event, go to:

## Reducing Underage Drinking with Practical Tools that Develop Social and Emotional Skills

WEBINAR //

Date: DEC 18 2018, 2:00 PM - 3:00 PM EST

### Description

A recent study found that Montana parents with higher social and emotional parenting skills were over six times more likely to engage in best practices to reduce underage drinking. This free webinar presented by the Montana State University Center for Health & Safety Culture will review social and emotional skills, how they are protective for youth, and a project creating practical tools for parents to reduce underage drinking and strengthen social and emotional skills.

# Spring 2019

## Casey Thomas

Okay, okay... I know I am not physically here for the meeting...  
But I still wanted to take a moment to say **THANK YOU** to everyone who helped the SGA this semester.

- If you submitted a bill... Thank you!
- If you volunteered for an event... Thank you!!
- If you came to our meetings and ate the food... Thank you!!!

There is something for everyone in this organization.  
It's **your** SGA! Consider getting involved in one of our projects in Spring 2019!  
Enjoy the upcoming holidays and good luck on all final exams!
