TEACHING EXPERIENCE AND RESPONSIBILITIES

CURRICULUM DEVELOPMENT/IMPLEMENTATION

SIT Study Abroad, a program of World Learning. International Honors Program (IHP)

Spring 2017 Course Coordinator (Lead Faculty): Health and Community Washington, DC, USA; Hanoi, Vietnam; Delhi, India; Cape Town, South Africa; Buenos Aires, Argentina; São Paulo, Brazil
Globalization & Health: IBPH 3500; Public Health from Biology to Practice: IBPH 3505
Organize and facilitate four courses for two program tracks taught in multi-country modules by 12 local professors across 8 country programs, including collaborative syllabi, integrated and cumulative student experience, local faculty support.

Johns Hopkins Bloomberg School of Public Health

- 2021-22 Course Development- *Gender & Health: Foundational Theories and Applications; 221.621. 3 credits. Co-developed with the JHU Gender and Health Committee.*
This course provides a broad overview of the field of gender as applied to public health; discusses the distinction between sex and gender and how they intertwine; examines the effect of gender power relations on the health of people of all genders; prepares students to apply foundational theories in gender and health to a broad range of health topics; presents strategies for incorporating gender analysis into health research and interventions.
- 2020-22 Course Re-development - *Research Methods in Public Health: 280.240. 4 credits. Co-redeveloped with Dr. Zoe M. Hendrickson.*
This course examines the research process, with an emphasis on learning and applying principles of research design, formulating research questions, critically evaluating published research, and drawing objective conclusions from a body of scientific literature. Students conduct a review of the scientific literature related to a public health issue. Labs focus on applying knowledge of research design, developing and documenting sound review and study methodologies, and effective written communication of findings.

- 2022-2023 Course Re-development, Institute Development - Global Perspectives on LGBT Health: 410. 3 credits or continuing education certificate. *Co-developed with Dr. S. Wilson Cole.*
This course provides students with knowledge and skills to understand multi-level factors that influence health and well-being among LGBTQ populations globally. Students develop an appreciation for various forms of sexual and gender identities— including how culture shapes such identities in various regions and country contexts; explore the roles of minority stress, stigma, and discrimination in health disparities; develop a strengths-based approach to understand coping and often thriving among global LGBTQ communities— spotlighting resilience, social support, community action, and positive policy environments.
- 2023-24 Course Development- Measuring Sexual Orientation, Gender Identity and Expression (SOGIE). 220.63. 2 credits or continuing education certificate.
This course provides students with knowledge and skills to conceptualize, operationalize, and measure key concepts related to sexual orientation, gender identity, and gender expression (SOGIE). Students will develop an appreciation for the multitude of sexual and gender identities across geo-cultural contexts, and the critical importance of SOGIE inclusion in public health research and practice. The class includes a strengths-based approach to practical endeavors, such as developing survey questions and response options and patient/participant in-take forms. Lessons learned will be applied in the context of global public health research and practice.

Louisiana State University Health Sciences Center, School of Public Health

- 2025 Course Development- Qualitative Research Methods for Public Health. CHSP 6233. 3 credits.
This is an intermediate methodological course which will introduce students to qualitative research applied in the context of public health inquiry and practice. The course is designed to provide an orientation to the theoretical and epistemological foundations of qualitative approaches and discuss their strengths and limitations inclusive of ethical considerations, explore various qualitative data collection methods, and discuss qualitative data analysis. Students will develop critical thinking skills related to qualitative research and be expected to apply knowledge gained to real world public health research endeavors.

FORMAL COURSE RESPONSIBILITIES

Course Director

Fall 2014 Behavioral Theories in Public Health: PHLT 2001

3 credits. (12 students). Xavier University of Louisiana. (undergraduate)

Students are introduced to the use of interpersonal and intrapersonal theories to inform the development of theoretically sound public health interventions.

Spring 2015 Introduction to Public Health: PHLT 1001

3 credits. (30 students). Xavier University of Louisiana. (undergraduate)

This course takes a multidisciplinary “population health” approach using an ecological perspective. Determinants of health including environmental, behavioral, biological, and socio-economic factors as well as access, quality and cost of medical care are central to the course. It emphasizes the historical and current roles of public health and introduces students to basic epidemiological concepts of rates, causation and public health surveillance

Fall 2016 **Community Health Research Methods: IBPH 3510**
3 credits. (25 students). SIT Study Abroad, a program of World Learning- Health and Community International Honors Program (IHP): Washington DC, USA; Hanoi, Vietnam; Cape Town, South Africa; Buenos Aires, Argentina. (undergraduate)

This course strengthens students' competence in inquiry-guided learning through field-based case studies. The course begins with an introduction to the philosophic traditions of ethnography, epidemiology, and health services research — complementary and sometimes conflicting. It then teaches and gives students the opportunity to apply the chief tools of each tradition (e.g., participant observation, in-depth interviewing, mapping, interpreting data analyses, and oral presentation of findings). In each country, students choose from a range of available field case study topics/sites as the primary venue for demonstrating their field research and presentation skills.

Fall 2016 **Medical Anthropology: Health, Culture and Community: ANTH 3500**
3 credits. (26 students). SIT Study Abroad, a program of World Learning- Health and Community International Honors Program (IHP): Washington DC, USA; Hanoi, Vietnam; Cape Town, South Africa; Buenos Aires, Argentina. (undergraduate)

RESEARCH AND SCHOLARSHIP

Grants and Contracts:

FUNDED

*Note: grant amounts are provided on awards for which I am PI

Improving LGBTQ Cultural Competency: The Design & Implementation of a Training Program at Tulane University School of Public Health & Tropical Medicine

- Funding Agency/Amount: Interdisciplinary Innovative Programs Hub (I2PH), Tulane University; \$3,000
- Co-PIs: **J. Glick**, A. Talan, C. Drake
- Project period: 01/15-03/16
- Main objective: To enhance the LGBTQ cultural competency of Tulane School of Public Health and Tropical Medicine students, faculty and staff.

Transgender Stigma and HealthCare Access

- Funding Agency/Amount: Tulane Maternal & Child Health Epidemiology: Student Research Development Grant; \$3,000
- PI: **J. Glick**
- Project period: 05/15- 05/16
- Main objective: To explore the impact of stigma on healthcare access among transgender populations.

Supplement to NIH/NIAAA (2P60AA009803, Research Component 5); Sexual and Gender Minority Stress and Alcohol Use in Persons Living with HIV/AIDS (PLWHA)

- Funding Agency/Amount: NIH/NIAAA (2P60AA009803, Molina); \$100,000
- PI: Dr. K. Theall
- Role: **Postdoctoral Fellow, Grant Co-Author**
- Project period: 09/16-11/17
- Main objective: To conduct community-engaged research to better understand unique psychosocial stressors among SGM populations in New Orleans, LA.

Fentanyl Overdose Reduction Checking Analysis Study (FORECAST) Study

- Funding Agency: Bloomberg American Health Initiative
- PIs: Dr. S. Sherman, and T. Green
- Role: **Qualitative Study Lead/Postdoctoral Research Fellow**
- Project period: 05/17-01/19
- Main objective: To investigate three available Fentanyl detection technologies which provide people who use drugs with information that could save their lives.

A community-based ethnography exploring PrEP barriers and facilitators impacting transgender women who engage in sex work

- Funding Agency: Johns Hopkins University Center for AIDS Research (CFAR)
- PI: K. Footer
- Role: **Research Director/Postdoctoral Research Fellow**
- Project period: 05/2017-05/18
- Main objective: To conduct formative research to develop PrEP interventions for transgender women who sell sex in Baltimore.

Drug Dependence Epidemiology Training Program (DDET)

- Funding Agency: National Institute on Drug Abuse (T32DA007292)
- PI: Drs. B. Maher and R. Johnson
- Role: **Postdoctoral Fellow**; 07/17-06/19
- Main objective: Facilitate the training of students in substance use etiology, epidemiology, prevention, and treatment of substance use disorders.

Promoting Empowerment and Risk Reduction (PEARL), PrEP intervention development for cisgender female sex workers

- Funding Agency: NIH/NIDA R34DA045619-02
- PI: Dr. S. Sherman
- Role: **Formative Research Director/Postdoctoral Research Fellow**
- Project period: 07/2017-12/2020
- Main objective: To employ community-engaged formative research to inform the development of an intervention tailored for cisgender women who sell sex; to assess PEARL's acceptability, feasibility, and efficacy on PrEP uptake and adherence; to explore patterns and predictors of PrEP adherence.

CDC National HIV Behavioral Surveillance Project: Baltimore Site (BESURE)

- Funding Agency: CDC/Maryland Department of Health and Mental Hygiene
- PI: Dr. D. German
- Role: **Co-Investigator, 40% LOE**; 2/18-11/23; **Co-grant writer**; 2022

- Project period: 09/18-12/18
- Main objective: To facilitate/evaluate SGM educational collaborations across Johns Hopkins Medical Institutions.

Exploring HIV risk and social support among high-risk sexual minority women (HR-SMW)

- Funding Agency/Amount: Center for AIDS Research, Johns Hopkins University (JHU CFAR); \$50,000
- **PI: Dr. J. L. Glick, 15% LOE**
- Project period: 01/2020-12/2022
- Main objective: To understand how sexual minority status and social relationships affect risk behaviors, contexts, and access to preventive and social resources among HR-SMW.

Improving HIV PrEP Engagement among High-Risk Women in Baltimore (OPAL)

- Funding Agency/Amount: NIH/ Johns Hopkins University Center for AIDS Research; \$245,000
- Co-PIs: **Drs. J. L. Glick & Ju Park, 15% LOE**
- Project period: 08/20-04/2022
- Main objective: To collect formative data and develop a PrEP promotion intervention tailored to women who use drugs in Baltimore City.

Epidemiology of Potential Long-Acting Pre-exposure Prophylaxis Users Among MSM: American Men's Internet Survey (AMIS): 2020-2022

- Funding Agency/Amount: ViiV Healthcare/Emory University; \$265,000
- **PI: Dr. J. L. Glick, 15% LOE**
- Project period: 11/2020-11/2023
- Main objective: To support the American Men's Internet Survey (AMIS), which explores PrEP uptake among MSM in the United States, by providing scientific expertise on survey development, analysis, and dissemination.

Syringe Services Program Implementation in Rural Counties Vulnerable to HIV Outbreak

- Funding Agency: NIH/NIDA
- PI: Dr. Sean Allen
- Role: **Co-Investigator, 15% LOE**; 05/21-12/21
- Project period: 02/18-12/2024
- Main objective: To explore barriers and facilitators of syringe services program implementation among rural Appalachian counties vulnerable to HIV outbreak in Kentucky and West Virginia.

Prevalence of HIV infection and risk factors among adolescents in Brazil

- Funding Agency: National Research and Technology Council [Conselho Nacional de Ciência e Tecnologia - CNPq]
- PI: Dr. D. Ligia Kerr
- Role: **Co-Investigator**; 11/19-12/2024
- Project period: 11/19-12/2024
- Main objective: To estimate the prevalence of HIV, syphilis and hepatitis and to evaluate the sexual behaviors and practices among MSM adolescents in Fortaleza and São Paulo, Brazil.

Investigating the role of neighborhood disadvantage in opioid use disparities among women at the intersections of race and sexual orientation

- Funding Agency/Amount: Hopkins Center for Health Disparities Solutions; \$50,000
- **PI: Dr. J. L. Glick, 15% LOE**
- Project period: 07/2021-04/2023
- Main objective: To better understand the association between neighborhood disadvantage and opioid use among women at different intersections of race and sexual orientation.

The short and long-term dynamics of opioid/stimulant use: Mixed methods to inform overdose prevention and treatment related to polysubstance use (R01DA057673)

- Funding Agency: National Institute of Allergy and Infectious Diseases (NIAID)
- Funding Mechanism: R01
- Co-PIs: Drs. B. Genberg & D. German
- Role: **Co-Investigator, 15% LOE; 11/22-11/23**
- Project period: 11/22-10/27
- Main objective: To further our understanding of both long- and short-term patterns of opioid/stimulant use and the relationship with medication for opioid use disorder (MOUD) and overdose over time to inform treatment and overdose prevention services.

COVID-19 Bridge Award

- Funding Agency/Amount: Johns Hopkins University; \$50,000
- **PI: Dr. J. L. Glick, 15% LOE**
- Project period: 01/2022-01/2024
- Main objective: To support the ongoing career development of Dr. Jennifer L Glick.

HIV risk among sexual minority women: A scoping review

- Funding Agency/Amount: Johns Hopkins University Center for AIDS Research (CFAR); \$5,000
- **PI: Dr. J.L. Glick**
- Project period: 03/2023-02/2024
- Main objective: To characterize the literature on HIV risk and sexual minority women

Prospective Cohort of Rural US LGBTQ Persons to Definitively Characterize Depression and Suicidal Ideation Burdens, Determinants, and Preferred Intervention Approaches (REALM) (1R01MH129656)

- Funding Agency: National Institute of Mental Health (NIMH)
- Funding Mechanism: R01, 1R01MH129656
- PI: Dr. S. Murray
- Role: **Co-Investigator, 10% LOE; 04/23-present**
- Project period: 04/22-02/27
- Main objective: To comprehensively investigate rural SGM adult experiences of distal minority stressors and their relationship to prevalent mental health outcomes (e.g., incident depression, suicidal ideation, and attempts).

HIV risk, PrEP disparities, and stigma among Women who use Drugs in the U.S. South, with attention to race and sexual orientation: A mixed-method intersectionality study (K01DA059328)

- Funding Agency/Amount: National Institute of Drug Abuse (NIDA)/ \$930,960
- **PI: Dr. Glick, 75% LOE**
- Project period: 08/2023-07/2028
- Main objective: 1) To support career development of a LGBT junior faculty member in the field of HIV disparities with a focus on the research application of intersectionality theory; 2) to a) describe HIV risk and PrEP continuum disparities among WWUD in the US South, b) explore multi-level barriers/facilitators in HIV prevention-related healthcare, and c) explore institutional practices related to HIV prevention-related healthcare seeking, HIV risk, and the PrEP continuum.

Epidemiology of Potential Long-Acting Pre-exposure Prophylaxis Users Among MSM: American Men's Internet Survey (AMIS)

- Funding Agency/Amount: ViiV Healthcare/Emory University; \$225,000
- **PI: Dr. J. L. Glick, 10% LOE**
- Project period: 12/2023-11/2026
- Main objective: To support the American Men's Internet Survey (AMIS), which explores PrEP uptake among MSM in the United States, by providing quantitative and scientific expertise on survey development, analysis, and dissemination.

Preferences for and usage of long-acting injectable HIV pre-exposure prophylaxis among US transgender women: Transgender Women's Internet Survey (TWIST)

- Funding Agency/Amount: ViiV Healthcare/Emory University; \$292,088
- **PI: Dr. J. L. Glick, 10% LOE**
- Project period: 12/2023-1/2027
- Main objective: To support the Transgender Women's Internet Survey (TWIST), which explores PrEP uptake among transgender women in the United States, by providing quantitative and scientific expertise on survey development, analysis, and dissemination.

MAJOR AREA OF RESEARCH INTEREST:

My research aims to answer critical questions and inform practice at the intersection of gender, sexuality, and health equity. I am a public health social scientist with a background in anthropology and gender and sexuality studies and a robust skill set of theory-informed mixed-methods research talents. I work from a queer intersectional feminist orientation, prioritizing collaboration, community-engaged approaches, and action-oriented interdisciplinary teams. My current research interests include health equity and health disparities; HIV prevention and surveillance; substance use; intersectionality; transgender and non-binary health; sexual minority women's health; multi-level intervention development; sexual orientation, gender identity and expression (SOGIE) measurement; and health seeking behavior and healthcare access.
