Latest Update 07/06/2026

FY26 CDMRP program announcements:

Below is a list of the recently released CDMRP grant opportunities. Most of these require either a letter of intent or a pre-proposal (that is not particularly detailed). Those programs in “gray” have not yet been released. The Conafay Group is available to assist and guide you through the application process. To accomplish this, the Conafay Group (TCG) will need to see your pre-application or letter of intent on or before the dates listed on the Table. However, TCG is willing to discuss your ideas prior to submission to strengthen the proposal and make it more consistent with the goals of the Department of Defense. Please feel free to contact Evie Smith (esmith@conafaygroup.com) if you are interested in pursuing any of these opportunities. Dr. Qingzhao Yu (qyu@lsuhsc.edu) or Dr. Wayne Backes (wbacke@lsuhsc.edu) are also available to answer any questions that you might have.

Health informatics and Data Science

- CCTS Statistical and Analytic Methods Development** | The CCTS seeks to bridge the gap between data and clinical or translational research application by supporting the development statistical or analytical methods and computational

resources. Utilization of extant data derived from major CCTS-connected enclaves is encouraged. Faculty-level investigators at CCTS Partner Network Institute are eligible to receive \$5000. Details.
