Bladder cancer is
4x
as likely to affect
men compared to
women

More than
7 in 10
new cases were found at
early stages (localized) in
Louisiana

STAGE AT DIAGNOSIS DISTRIBUTION

¹ National Cancer Institute. Bladder Cancer Prevention PDQ, 2026
² State Cancer Profiles, National Cancer Institute and Centers for Disease Control and Prevention, 2026
⁺ Survival estimates are based on cases diagnosed 2012-2022 and followed through 2023.
[#] Prevalence counts are an estimate of the number of survivors on 1/1/2023 who were diagnosed between 2000-2022.

LSU Health
NEW ORLEANS
Louisiana Tumor Registry

Smoking greatly increases bladder cancer risk. If you currently smoke, consider quitting.¹

LOUISIANA TUMOR REGISTRY

OUR MISSION

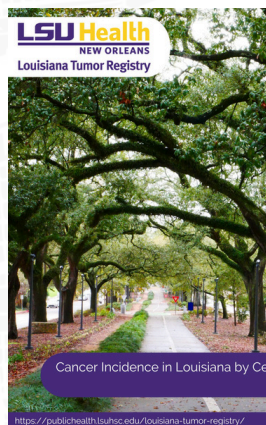

OUR VISION

ANNUAL REPORTS

One of 22 NCI-designated SEER cancer registries that gather information about cancer cases to help guide policies for cancer prevention, early detection, diagnosis, treatment, prognosis and survivorship.

To collect and report complete, high-quality, and timely population-based cancer data in Louisiana to support cancer research, control, and prevention.

To reduce suffering and death from cancer using information collected by the Louisiana Tumor Registry.
