

## **UPDATE on ICD-10-CM Training Requirements for AHIMA Credentialed Registrars**

For those of you who need ICD-10-CM training to maintain your AHIMA credentials, **AHIMA has moved the requirement date to December 31, 2014.** You must have 6, 12 or 18 hours of ICD-10-CM training (based on which credential[s] you have). **AHIMA Credentials affected are: RHIA, RHIT, CCA, CCS, CCS-P.** If you were unable to attend one of the three presentations provided by this group in 2012, you can order them from NCRA's website (<http://www.cancerregistryeducation.org/learning-modules>). AHIMA also has many educational opportunities for CEU's on ICD-10-CM training. For a comprehensive listing of all ICD-10-CM training go to <http://www.ahima.org/ContinuingEd/Campus/courseinfo/ICD10.aspx>.
